JEROME IMPEDES INSANITY DEFENSE

Continued from Page One

testimony of all of them bearing on the mental condition of the defendant at various periods of his life.

The early adjournment was ordered because certain witnesses upon whom Mr. dent; James G. Payne, first vice presi- Littleton had been depending failed to arrive, according to agreement. It is expected that they will all be on hand tomorrow.

The afternoon's work, however, emphasized the conflict that began in the morning as soon as the defense began to try to show insanity among Thaw's relatives. Mr. Jerome kept right on invoking the statute that provides "that no physician or nurse shall testify to facts learned in their professional capacities unless the men, however, to see their reports igpatient affected by the testimony gives his consent in open court."

Dr. Chase First Witness.

Dr. Robert H. Chase, of Philadelphia, was the first witness to take the stand after luncheon. He said he examined Harriet Alice Thaw in 1904 with reference to her sanity and that she was subsequently committed to an insane asylum in Frankfort, Pa., where she still re-

Mr. Littleton asked the doctor to go into the details of his examination. Mr. Jerome was up in an instant with his old objection about confidential communications from patient to physician. Justice Dowling promptly sustained him. The record of Miss Thaw's commitment

to the asylum was also barred out. Mr. Littleton tried to get in the testimony by asking Dr. Chase if he based his opinion of Miss Thaw's condition upon his examination and without reference to anything the patient said. The witness said he based it partly upon statements Miss Thaw made to him. Confidential Testimony Barred.

There was a little argument on the point, but Justice Dowling finally said: "The statute absolutely closes the door unless it is opened by the consent of the

nored, their suggestions in regard to trade opportunities set aside, and billions of sum into American coffers.

is beginning to modify his ideas to suit heating stoves in Para, Brazil, and at the enterprising youth who invested his all in corn salve to be sold the bare-foot Japanese. He is learning to study climatic conditions and the customs and needs of a people before unloading his wares on them

American salesmen have gone after rade, and they are going to get it. There is the Singer Sewing Machine Company, for instance, whose wares are doubtless riage whose picture he had seen in a more widely disseminated throughout the catalogue. He could not read the demore widely disseminated throughout the world than those of any other manufacturing concern in existence. The salesmen of this company have penetrated every country on the globe, and in the enterprise. The salesmen studied the situation there, too, and the machines they ride, however, was not a success. The ordered for the use of the women in Fez ordered for the use of the women in Fez Carlo she was called by a physician of and suited to operators who sat upon the borrowed an ax, cut a pole from the were small ones, turned by handpower, A young American salesman in Cuba

held that view, too.

"It is plain," said Mr. Littleton, "that it to their notice. A million and a half he had a bonanza if he could only bring "The purpose of the district attorney," of the stuff he did not know. He was Washington larger by thousands than napped Mr. Jerome, "is to comply with willing to advertise and had plenty of was ever before attained by any mornmoney to spend that way, but what ing newspaper at the Capital. > A young man experienced in selling books in the United States found the trade overworked here, and decided to go abroad with his wares. He got information on the markets and the tastes of South American countries, invested his of South American countries, invested his all in a stock of books, and set out for his new territory. At a South American his new territory. At a South American logue FREE, ja port he stood on the steamer deck watch ing the discharging of the cargo. The water was shallow in the harbor, and the cargo was landed on barges and taken ashore. One box of his stock of books was swung out over the barge when a break in the hoisting machinery and a ARITHMETIC, AND ENGLISH THOROUGHLY pathy, for they knew of his venture, and quarantine ship Jamestown, she lost both her anchors and chains, her rails were carried away and her rigging was damof the books would be sent on muleback over long trails through sections subjecto tropical storms, and they were too writer said in this article that "Thaw's wares, too. His work at home had taught face was like marble, his eyes cool and him the value of advertising and the comming, as he fired the first shot." mendation. He interested the Presiden and the government officials, and their An American who was a traveling sales

after the first shot," said the witness, man for a mercantile firm found himself "What I testified was how he looked after suddenly stranded in an Oriental city man for a mercantile firm found himself the shooting was over."

With remittances from home long overdue. Bills loomed to a prodigious height just failed in business had among its assets a cash register. The salesman had an idea that the cash register might take. He got permission to put it in a little store that had a large Chinese patronage. Sure enough, a Chinaman soon noticed it and became curious. The mechanism appealed "This machine, he great idea, acter, partners in business generally fearing each other. The news of the vigilant machine spread, the American began taking orders for its sale, and established a flourishing trade.
England for a long time had an extensive trade in clocks with the natives

of the Congo country. An enterprising

Our many failures in the field of for- America manufacturer found he could eign trade have already begun to teach make the same clock cheaper, and sent down an expert to study the situation. It developed that clocks with loud ticks patient work of our consuls is beginning at last to bear fruit. The American consular service is acknowledged to be the ment of clocks which had such a strident best in the world, and after it has been and insistent tick that English clocks patterned the service of other nations. Were no longer popular. Every hut tried It has been discouraging to these earnest to afford one, that would make noise enough to appraise the passer by of the owner's prosperity.

Korea is now one of the best buyers ioliars diverted to other countries when of petroleum, but it was a long while a little effort on the part of America's before the salesmer could get so much manufacturers would have brought that as a foothold in that country. Lamps were looked upon as works of the evil The failures we have made have caused one. Then an artful commercial traveler, a sudden awakening, and already the knowing, the Korean reverence for the ubiquitous Yankee drummer is making moon, declared that the oil was distilled himself known in remote countries, and from moonbeams, and that it was a prothose of his prospective purchasers. He those of his prospective purchasers. He is ready to learn the languages of the countries with which he must trade, and made fast enough to take his breath to sell the goods the people want. He away. It was a fable with a good sciencan soon laugh at the young fellow who insisted on trying to sell a cargo of believes he escaped honorary membership in the Ananias Club

Despite the fact that the majority of American catalogues sent to Spanishspeaking South America are all artlessly printed in English, sales are sometimes made from them. Some years ago there was not a carriage in Tegucigalpa, and the President of Guatamala appealed to the consul there to help him order a carscription, but the picture suited, and he ordered that it be sent just exactly as the picture looked. For once the manufacturers filled the order to the letter, and the carriage came without a tongue. heart of Morocco the Singer sewing ma- The consul pointed out the mistake to chine is the only evidence of American the President, but it was like the picture. so the dignitary was satisfied. The first mules that drew it were helpless against its rudderless state. Finally, the consul woods nearby, and son rigged up a servceable tongue, which adorned the carhad a proprietary medicine that he was riage of state for many years.
